## Points of View Reference Center™

*Points of View Reference Center™* is a full-text database designed to provide students with a series of essays that present multiple sides of a current issue. The database provides 250 topics, each with an overview (objective background/description), point (argument), counterpoint (opposing argument), and *Critical Thinking Guide*. Topics covered include: affirmative action, cloning, DNA profiling, HIV/AIDS status disclosure, immigration, Iraq, Israel & the Palestinians, Katrina and FEMA response, nuclear proliferation, separation of church and state, standardized testing, stem cell research, tax cuts, voting machines, and many more.

*Points of View Reference Center* contains a balance of materials from all viewpoints, including 1,143 main essays, leading political magazines from both sides of the aisle, newspapers, radio & TV news transcripts, primary source documents and reference books. The database also offers guides to debate, developing arguments and writing position papers. Additionally, this database contains the *Video Encyclopedia of the 20th Century*, providing students with a searchable collection of some of the most important social, political, and cultural moments of the 20th century. *Points of View Reference Center* provides the basis from which students can realize and develop persuasive arguments and essays, better understand controversial issues and develop analytical thinking skills. *Critical Thinking Guides* for every topic covered helps the student judge Fact vs. Opinion and enhances the student's ability to read and think critically.

If *Points of View Reference Center™* is of interest, the following items may be of interest as well:
